**I. ITEMS DISCUSSED:**

1. Mayor Carey stated the council is having difficulty with price ranges on the bids based on the designs for the memorial and reminded us about the goals of the resolution.

2. The committee unanimously agreed that simplifying the design to be plant material only would be the best way to proceed. The consensus was there has not been enough support for the concept with paving, seat walls and rain garden to proceed with presenting this plan to the Committee on Public Facilities. And that we would reconvene once more with a revised plan prior to presentation the Committee on Public Facilities
