

**Town of University Park
Sustainability Committee
Wednesday, February 3, 2021
Meeting Minutes**

Committee members in attendance: Roy Alvarez, Steve Hurtt, Joe Schultz, Joe Thompson, Mary Sue Twohy

The meeting, held via Zoom, was called to order at 7:30 p.m.

1. UMD School of Information student capstone project

The town was approached by Andy Fellows of UMD Campus Community Connection about participating in another student project for winter/spring 2021. The project will involve gathering requirements and investigating alternatives for an online, map-linked database that can be used to update and maintain a tree inventory for the town.

2. Wells Run and stormwater

General discussion of the situation re: occasional flooding of the creek, and options for mitigating it. The committee will explore the idea of revising and expanding the park planning concept note of two years ago, which at that time was intended to provide a basis for seeking partnerships with UMD students and faculty, to see if it might be reworked to support development of an RFP for a park plan, and perhaps to seek grant funding. Schultz to make some initial revisions and circulate as a basis for further discussion.

Meeting adjourned at 8:45 p.m.

Submitted by Joe Schultz, chair.
