

July 11, 2022 PRMS Committee meeting:

Racial Covenants in Home Deeds

Explained Racial Covenants in deeds to new members. Still working through the process of recovering an original deed to complete the how to documentation. It's a process. Reviewed the Washington Post article which does a good job of summarizing the issue. The article references an instance of an Assemblyman in Sacramento sponsoring a bill in late 2020 to have them removed from his locale. Researching that to see what the end result was.

Gas Blower Ban

Reviewed the Gas Blower issue. Create an English and Spanish communications plan for communicating with homeowners and their lawn care people about the ban...and perhaps suggestions for how people can collectively do donations that would help small commercial operators. Creating an implementation policy and creating a rebate form. Suggested that since the rebate program is available now, and the ban doesn't go into place for another year and 3 months, we could stagger the messaging and emphasize the rebate program.
